Dec 05, 2020

[First Aid Af](#)

First aid is the first and immediate assistance given to any person suffering from either a minor or serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery. It includes initial intervention in a serious condition prior to professional medical help being available, such as performing cardiopulmonary resuscitation (CPR) while ...

First aid is the assistance given to an injured or sick person in need of urgent medical assistance. First aid applies to a broad range of medical situations and consists both of specific knowledge and skills (for example, what to do for each type of injury or illness) and the ability to assess a situation and make appropriate decisions (such as when to call for emergency medical assistance).
