If your player is one of the remaining 20 %, it is uncertain if a new laser unit is worth to purchase. In fact, I cannot claim that the player doesn't function only because of the faulty laser. If the player is still faulty I would suggest to take it to a specialist shop or to someone else who knows a lot about CD-players. A further test is described in the chapter

The Laser 4K Smart TV Media Player comes with a two-sided controller that can act as a remote, a mouse and a keyboard. The controller was frustrating to use at times with the on-screen mouse hard to control. The directional controls were also a little temperamental but we still managed to navigate the system. For our review, we connected the Laser 4K Smart TV Player to a computer monitor and ...

MP3 players have a USB connectivity port that enables them to be connected to a PC. Normally, when you plug your MP3 player into a PC, Windows automatically recognizes it. If you see the message "Unknown Device" your Windows PC does not recognize your MP3 player which means there could be device driver compatibility issues. This FAQ will walk you through how to solve this problem.
